

# **NS-205**

## **5-Port Industrial 10/100 Mbps Ethernet Switch**

### ***Introduction:***

The NS-205 has 5 Ethernet Switching ports that support 10/100Base-T, with a 10/100M auto-negotiation feature and auto MDI/MDIX function.

It can connect 5 workstations and automatically switches the transmission speed (10 Mbps or 100 Mbps) for corresponding connections. The flow control mechanism is also negotiated.

LEDs embedded in RJ-45 jacks make for easy monitoring. Port connectors are shielded RJ-45. A power source for 10-30VDC is required.

### ***Features:***

- Automatic MDI / MDI-X crossover for plug-and-play
- Each port supports both 10/100 Mbps speed auto negotiation
- Store-and-forward architecture
- Full duplex IEEE 802.3x and half duplex backpressure flow control
- 1.4Gbps high performance memory bandwidth.
- Integrated look-up engine with dedicated 1 K unicast MAC addresses.
- Supports +10 ~ +30V DC voltage
- Supports operating temperatures from -30 ~ +75 °C
- DIN rail mount for industrial usage
- 1.4Gbps high performance memory bandwidth.
- Integrated look-up engine with dedicated 1 K unicast MAC addresses.

### LED functions:

Standard RJ45 female connectors are provided. A standard RJ45 plug cable is all that is necessary to connect your device to the unit since switch that supports auto crossover. Table 1 shows the LED indicator functions. The module includes an internal.

### Ethernet Wiring:

When making a connection to another device using straight-through UTP cable, make sure the MDI-X to MDI connection rule is followed. The following figure illustrates the pin assignments of a straight-through UTP and a crossover UTP cable:

#### RJ-45 to RJ-45 Ethernet Wiring - Straight Type (Host <--> Hub)

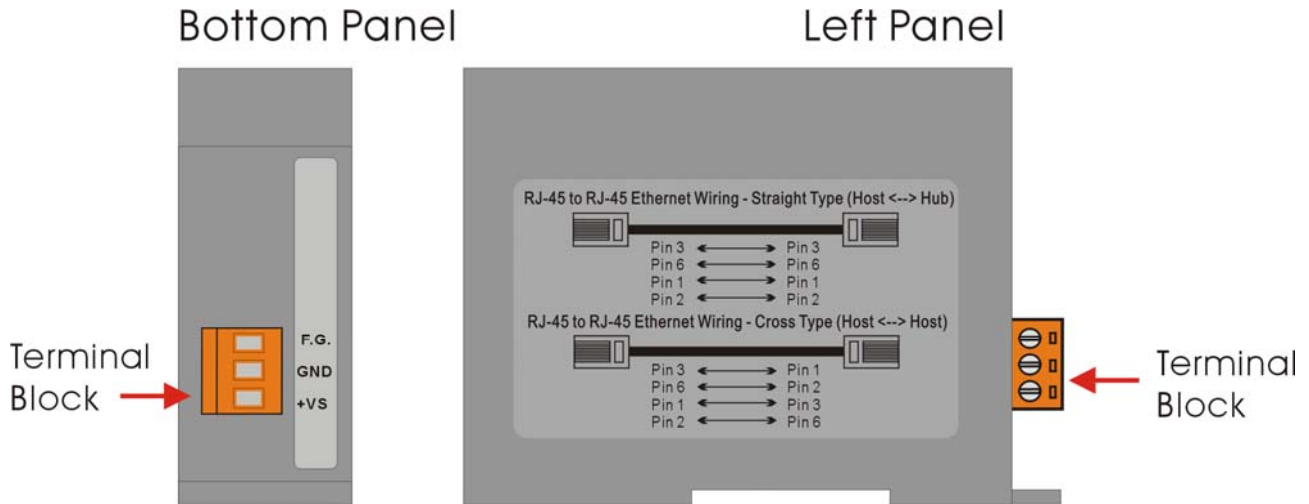

#### RJ-45 to RJ-45 Ethernet Wiring - Cross Type (Host <--> Host)

### Checking Power:

Since the NS-205 consumes 1.3W, ensure that your power supply is able to meet this demand. The Input voltage range is 10~30VDC.

External power supply is connected using the removable terminal block as shown below:

### Dimensions:

The width of the NS-205 is just 32.30 mm, so it can be used where space is important.
