

MXview

Industrial network management software designed for converged automation networks

- > Event Playback records network events, and replays past network incidents
- > Discovers and visualizes network devices and physical connections automatically
- > Central management of configurations and firmware for Moxa devices
- > Flexible events and notifications with self-defined threshold and duration
- > Supports third-party devices with MIB compiler and MIB browser
- > Comprehensive reports, including inventory, traffic, and availability reports
- > Generates OPC 2.0 compliant tags automatically to integrate with SCADA/HMI applications
- > Provides a virtual demonstration network that lets you experience the software without connecting any devices
- > Supports MXview ToGo mobile app for remote monitoring and notification—anytime, anywhere

Introduction

Moxa's MXview network management software is designed for configuring, monitoring, and diagnosing networking devices in industrial networks. MXview provides an integrated management platform that can discover networking devices and SNMP/IP devices

installed on subnets. All selected network components can be managed graphically via web browser from both local and remote sites—anytime and anywhere.

Visualization

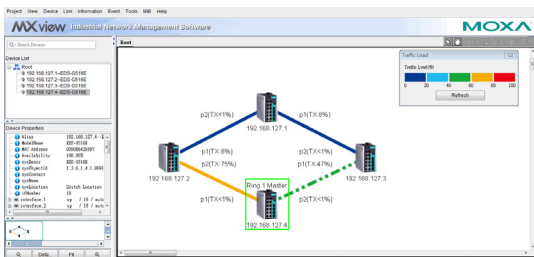

- Discovers up to 2,000 Moxa devices and SNMP/ICMP devices within scan range
- Visualization of redundant link status and device roles of network redundancy protocols
- Visualization of graphic VLAN groups and IGMP snooping roles
- Visualization of network traffic loading with color-coded links
- Device front panel visualization, including ports and LED indicators
- Visualization of managed PoE device power consumption
- Displays third-party device icons

PoE Visualization

Network Diagnostics and Event Notification

- Detect problems in real-time with SNMP trap/inform, or periodic polling
- Generate trend graphs to track bandwidth utilization and error packet rate statistics, accurate to four decimal points
- Event Playback records network events, and replays past network incidents
- Flexible events and notifications with self-defined threshold and duration
- Supports Syslog server for centralized message management
- Configurable event notification alarms sent through SMS, email, and SNMP trap, or locally through program notification, message box, and audio alerts
- Generates OPC 2.0 compliant tags automatically to integrate with SCADA/HMI applications
- Group health OPC tag represents entire network status
- Real-time device availability monitoring
- Supports third-party devices with MIB compiler and MIB browser
- Collaborates with third-party NMS through SNMP traps

Traffic Monitoring

MIB Compiler

MIB Browser

Event Playback

Comprehensive Reports

- Maintains device availability reports and records for up to 90 days
- Generates an inventory report for each device in the network
- Compiles comprehensive device properties report
- Generates network traffic trend reports

Availability and Inventory Report

Centralized Configuration and Firmware Management

- Bulk deployment of device configurations and firmware
- In one click, back up the entire MXview database in one click, including topology, job scheduling, events, and device properties
- Scheduling for periodic configuration backup
- Save history of configuration changes
- Comparison tool for checking differences between 2 configurations

Mobile APP for Network Monitoring

- MXview ToGo mobile app for remote monitoring and notification—anytime, anywhere
- Smart Device Identification with QR Code enhances operational efficiency
- Device Locator with mobile app reduces searching time in field site

System Requirements

CPU	2 GHz or faster dual core CPU
RAM	2 GB
Hard Disk Space	10 GB
OS	Windows XP Professional, Windows 7 (32/64-bit), Windows 8 (32/64-bit), Windows Server 2008 (32/64-bit), Windows Server 2012 (32/64-bit)

Ordering Information

Commercial Versions

- MXview-2000:** Industrial network management software with a license for 2000 nodes (by IP address)
- MXview-1000:** Industrial network management software with a license for 1000 nodes (by IP address)
- MXview-500:** Industrial network management software with a license for 500 nodes (by IP address)
- MXview-250:** Industrial network management software with a license for 250 nodes (by IP address)
- MXview-100:** Industrial network management software with a license for 100 nodes (by IP address)
- MXview-50:** Industrial network management software with a license for 50 nodes (by IP address)

License Upgrade

MXview Upgrade-50: License expansion of MXview industrial network management software by 50 nodes (by IP address)

Trial Version

MXview Trial Version: A free trial version of MXview is available for download from Moxa's website

Package Checklist

- MXview CD (includes the MXview software and related documents)
- License card

Supported Devices

MXview v2.6 supports the following devices by default.

Series	Model Name	Firmware
AWK Series	AWK-1121	V1.4
	AWK-1127	V1.4
	AWK-3121	V1.6
	AWK-3131	V1.1
	AWK-4121	V1.6
	AWK-4131	V1.1
EDR Series	EDR-G903	V2.1
	EDR-G902	V1.0
	EDR-810	V3.2
EDS Series	EDS-405A/408A	V2.6
	EDS-405A/408A-EIP	V3.0
	EDS-405A/408A-PN	V3.1
	EDS-405A-PTP	V3.3
	EDS-505A/508A/516A	V2.6
	EDS-510A	V2.6
	EDS-518A	V2.6
	EDS-510E/518E	V4.0
	EDS-G508E/G512E/G516E	V4.0
	EDS-G512E-8PoE	V4.0
	EDS-608/611/616/619	V1.1
	EDS-728	V2.6
	EDS-828	V2.6
	EDS-G509	V2.6
	EDS-P510	V2.6
	EDS-P510A-8PoE	V3.1
	EDS-P506A-4PoE	V2.6
	EOM Series	EOM-104/104-FO
